Application No. 10/596,151
Amdt. Dated: February 12, 2009
Reply to Advisory Action Dated: January 22, 2009

The Examiner is thanked for the courtesies extended during the telephone interviews in which proposed claim amendments were discussed in light of the prior art of record.

Allowable Subject Matter

The Examiner is again thanked for indicating in the final Office Action that the 35 U.S.C. 103(a) rejection of claim 2 (and thus claims 3-4 and 16, which depend therefrom) is withdrawn. New claim 25 incorporates limitations of independent claim 1 and claim 2, which depends from claim 1. Accordingly, Applicants respectfully request entry and allowance of claim 25.

Claim Rejections

The rejections of claims 1, 5-8, 10-12, 14, 17 and 18 should be withdrawn because independent claims 1 and 11 have been amended herein in accordance with the suggestions made by the Examiner during the telephone interviews and claims 5-8, 10, 12, 14, 17 and 18 depend from claim 1. Applicants believe that the subject claims are now in condition for allowance. Therefore, Applicants respectfully request withdrawal of the rejections of the subject claims and an indication of an allowance.

New Claims

New claims 21-25 emphasize various aspects. No new subject matter has been added. The aspects in the new claims are absent from the prior art of record. New claim 25, as noted above, includes subject matter deemed allowable by the office. Entry and allowance of claims 21-25 is respectfully requested.

Conclusion

In view of the foregoing, it is submitted that the claims distinguish patentably and non-obviously over the prior art of record. An early indication of allowability is earnestly solicited.
